# New Blazes Threaten Forests

Cold Lake Fire Controlled But 7 Others Raging

Fire fighters in their second round against the worst forest fires in Alberta's history checked one blaze yesterday but are still continuing the battle against flames in seven widely-separated areas.

Last month, fires in the Lesser Slave Lake and Lac la Biche districts raged for nearly a month before being brought under control.

Recent hot dry weather has increased the fire threat, and new blazes broke out this week at Whitecourt, Carrot Creek, Grande Prairie, Culling Lake and Cold Lake.

**COLD LAKE CONTROLLED**

Lake yesterday, fires at Cold Lake, 300 miles northeast of Edmonton on the Saskatchewan border, raged for nearly a month before being brought under control.

Recent hot dry weather has increased the fire threat, and new blazes broke out this week at Whitecourt, Carrot Creek, Grande Prairie, Culling Lake and Cold Lake.

At Carrot Creek, 97 miles west of Edmonton, little progress was made against a fire burning in 200 acres of scrub near heavy timber stands.

Two fires which started yesterday at Grande Prairie, 100 miles northwest of Edmonton, are also burning, but are not believed to be serious.

A dangerous fire at Whitecourt, 98 miles northwest of Edmonton, is still burning today despite the efforts of a 25-man crew using three bulldozers.

**CALLING LAKE FIRE**

At Calling Lake, 100 miles northeast of Edmonton, crews are battling a fire which has been burning since early this week. Fire is also burning at Breton, northwest of Whitecourt.

Lesser Slave Lake and Lac la Biche districts have increased heat of fires which had been restricted to peat and roots earlier this week.

# Oil Reserves Are Issued

Reservations for another 8,000 acres of crown oil rights have been issued according to an announcement made today by the Department of Mines and Technical Surveys.

Edward Scott Kane has been issued a permit covering about 20,720 acres 70 miles northeast of Calgary in township 31 and 32, ranges 12 and 22, west of the fourth meridian. Reservation complete 57,800 acres about 90 miles west of Edmonton in township 31 and 32, ranges 12 and 22, west of the fifth meridian. This reservation covers 30,000 acres have been cancelled.

It was also announced that reservations covering 30,000 acres have been cancelled.

The 18,000-acre block in township 22 and 34, ranges 14 and 15, west of the fourth meridian. This reservation covers 30,000 acres have been cancelled.

Also cancelled is a 55,000-acre tract in township 45 and 46, ranges 6 and 7, west of the fifth meridian. The adjoining 45,000-acre block on the south, both held by J. L. Carr.

**'Peg Celebration Has Blazing End**

WINNIPEG, June 11.—(CP)—Winnipeg's 75th anniversary celebrations conclude tonight with a spectacular display, and a parade of floats of Winnipeg's first and present mayors.

Also on the program today are archery and golf rolling contests. A scenic bicycle race will be a match between the touring New Zealand United and the Winnipeg All Stars, an exhibition basketball game and an ice revue featuring Barbara Ann Scott and theatrical revues.

**20 AND 9 MINUTES DEAD**

# Heart Massage Revives Patient Who Died Twice

BALTIMORE, June 11.—(AP)—How a man who "died" twice on the operating table and came back to life both times after a surgeon massaged his heart was told here today.

Physicians said the 49-year-old patient's heart and respiration stopped for 20 minutes at one time and nine at another.

The man, James W. Stanek, entered Maryland General Hospital for a hernia operation Wednesday.

# MODERN EXPLORERS PROBE WILDERNESS

Charting a course for Yellowknife where they will explore uncharted Carp Lakes and Elmer Lake areas are young geologists of Geological Survey of Canada, Flying from Edmonton tomorrow are standing, from left, Bob Ellis, Toronto; Vincent Hill, Jamaica; and Fred Barnes, Toronto. Seated are Mack McClure, Detroit, and Tom Waterston, Montreal. They will make geological maps.

It was the first go-around given by the five companies whose bills of incorporation were hastened through parliament in its dying days last March. Parliament in a general bill provided for inter-provincial and international pipeline and the bills of incorporation have each of the five companies general powers to construct such lines. However, the authority of the board must be granted before the companies can proceed with construction.

**THREE OTHERS**

Three other applications are before the board. One by the Westcoast Transportation Company, for a line from Vancouver to the Yukon, was approved last week. Another application by the same company for a line from Calgary to Trail, B.C., and to the international border, is on the board's agenda, but no definite date has been set.

Scheduled for hearing June 30 is an application by the Western Pipeline Company to build a conduit from Calgary to Winnipeg.

Passengers admitted to hospital were Mrs. John Gulka, Winnipeg; Mrs. W. Ludewski, J. Sutherland and J. Fedoruk, all in Wood; and Miss Mary Moran of Warren, Man. None was reported in serious condition.

**PM Well Again**

QUEBEC, June 11.—(CP)—Prime Minister St. Laurent will resume his election campaign Monday in rural Quebec, it was announced last night.

A minor attack of laryngitis interrupted his strenuous speaking tour two days ago.

On the basis of estimated attendance the City's share of revenue on the agreed 15 per cent of gross gate would be about \$7,500 for seven games.

Players and exhibition games would mean a substantial raise for the club.

There is the concession revenue that would go to the City. The proposed duplication of grandstand seating would therefore be a net gain of at least \$10,000 for the club.

The letter to CFC commissioners from the football club stated: "It is our confirmed opinion that attendance at each of the seven league games will be above 8,000."

Mayor Harry B. Ainlay and City Commissioners expressed satisfaction at the club request for new seating capacity of the park well above 8,000.

Request of the football club will be brought before City Council at the Monday night meeting.

# Edmonton-Regina Pipeline Completed by October '51

OTTAWA, June 11.—(CP)—The Board of Transport Commissioners yesterday approved an application by the Interprovincial Pipe Lines Company for construction of a crude oil pipeline between Edmonton and Regina.

Form of the line granted gives the company a subsidiary of Imperial Oil Co., power to construct the pipeline from Edmonton to Regina. It will be completed "on or before" Oct. 31, 1951.

It was the first go-around given by the five companies whose bills of incorporation were hastened through parliament in its dying days last March. Parliament in a general bill provided for inter-provincial and international pipeline and the bills of incorporation have each of the five companies general powers to construct such lines. # Shots Fired at Coast in Sea Strike Battle

EVEN A DEER KICKS MAN IF HE'S DOWN

PORT JERVIS, N.Y., June 11.—(UP)—Clark Pounell, 39, of Unionville, Conn., complained from a hospital bed today that even a deer will kick you when you're down.

Pounell ran into a deer yesterday while he was motorcycling. He was thrown over the handlebars and broke a leg when he struck the road.

"I was lying there dazed and helpless," said Pounell. "Then the deer walked over and kicked me."

# Railway Strikers Defy K. Gov't

LONDON, June 11.—(CP)—Railway strikers today defied a government demand to end their "Sunday only" work stoppages on Britain's nationalized rail lines.

The strikers' union, the National Union of Railwaymen, demanded that the government should not keep them away from home at night and should not halt their trains on north-south lines at midnight tonight for the fourth week-end in a row.

Meanwhile 40,000 London trainmen were called to a mass meeting to discuss whether to bring all London's surface and underground lines to a standstill. Railway union officials said any action taken would be unofficial and without the support of the union.

**GOV'T INTERVENTION REFUSED**

In addition to the schedule demanded by engineers and firemen, the country's railways men seek a general wage increase of 10 shillings (£2) a week.

Labor Minister George Isaacs said night rejection of a request by the railwaymen's union for government intervention in the strikes.

He drafted a reply to the union calling for its immediate withdrawal of support of Sunday strikes.

Isaacs is scheduled to make a country-wide broadcast on the situation.

**SERVICE MEN ATTEND**

After a hurriedly-called cabinet meeting last night, attended by Prime Minister Aitken, a brief communique was issued which said that "a report on the railway situation was received" and that "the position in Liverpool and Ayrmouth dock is under consideration."

Some 10,000 dock workers at Liverpool and Ayrmouth have been in strike for several weeks in support of the Canadian Seamen's Union walkout in Canada.

Presence of service ministers at the cabinet meeting indicated that more troops may be used to overcome the disruption caused by rail and dock strikes.

Some 10,000 troops today are on duty at Liverpool and Ayrmouth docks in support of the Canadian Seamen's Union walkout in Canada.

**U.K. Will Export Stratford Beer**

STRAITFORD-ON-AVON, Eng., June 10.—(Reuters)—American soda will be able to drink beer brewed at Stratford-on-Avon, birthplace of William Shakespeare, from bottles with the playwright's picture on the label. Plans for exporting the dollar-earning beer were announced today by a local brewery.

**Contractor Would Double Clarke Seats for \$18,200**

Edmonton Eskimo rugby football club officials have located a building contractor booster.

City officials have been informed in a letter from the Eskimo club that a contractor has agreed to duplicate present grandstand seating at Clarke Stadium by constructing 2,160 seats for \$18,200.

The football officials say the contractor has made a firm bid for the job at the figure mentioned.

**SEATS 3,200 NOW**

With an additional temporary bleachers at Clarke Stadium, present seating capacity is about 3,200.

The proposed duplication of grandstand seating would therefore be a net gain of at least \$10,000 for the club.

The letter to CFC commissioners from the football club stated: "It is our confirmed opinion that attendance at each of the seven league games will be above 8,000."

Mayor Harry B. Ainlay and City Commissioners expressed satisfaction at the club request for new seating capacity of the park well above 8,000.

# Two Rifle Bullets Just Miss Police

By The Canadian Press

Gunfire marked a fresh outbreak of violence in Vancouver yesterday in the strike called by the Canadian Seamen's Union March 31 against east-coast operators, the Shipping Federation of Canada, for signing working agreements with a rival union.

The west-coast action, during which two rifle bullets just missed a squad of police, came a week after the Communist-led CSU was suspended by its parent body, the Trades and Labor Congress.

Police officers held a CSU force at bay while a crew from the rival Seafarers' International Union (AFI) boarded the freighter Rockside. A policeman was knocked off his feet and several seamen were bruised and bloodied.

**SETTLEMENT OFFERED**

Also from Vancouver came a report that the CSU had offered to settle the strike in that port on the basis of interim agreements reached with the captains of two vessels, the Tripart and Lakeland.

Meanwhile, there were reports of shipping operators' troubles during being cleared by CSU, except in the United Kingdom where 10,000 dock workers are in a sympathy strike.

Unloading of ships at these three ports, many with perishable foods, is at a virtual standstill.

**2 MEN SENTENCED**

In Georgetown, British Guiana, yesterday 23 former crew members of the Canadian freighter Sunnyside, all CSU men, were sentenced to one day in jail and logged two days' pay on charges of disobedience of a lawful command.

The crew had tied up the ship in Georgetown for 54 days, defying a supreme court injunction to leave the port, and a week ago after being sentenced in prison to indefinite terms in prison for gross contempt of court.

**GOOD CIRCUMSTANCES**

They noted these aspects of Vishniuk's call for a one-day release: It came soon after State Secretary Dean Acheson of the United States warned the days of the conference were numbered unless Russia gives ground.

Secondly, Vishniuk's request was made immediately after the conference had reached a near-deadlock on three German issues before the council. These were four-power control in a politically and economically troubled Germany; Berlin and the currency question; and preparation of a German peace treaty.

**Two Prospects Arrested After Fire**

SAULT STE. MARIE, Ont., June 11.—(Police)—Police today held two men arrested in connection with the outbreak of a 35-acre forest fire in Hand township, 35 miles north of here.

Officers charged that carelessness of the men, whose names were not revealed, was responsible for the blaze.

**PUNSTER'S HOLIDAY**

# Sharp Rites Required As Schick Weds Shaver

VANCOUVER, June 11.—(BUP)—Doreen Joyce Schick became the bride of Leroy Cecil Shaver in a ceremony at the city hall.

The young couple, whose wedding was given a continental build-up by funnyman Gary Moore, and master of ceremonies of the radio program "The 10 or Leave It" laughingly admitted to a host of punsters' love getting in a lather.

Moore sent them gold fountain pens as wedding presents and a program reading "Congratulations to a sharp couple. Here's wishing you many little shavers. 'T'd love to be at your wedding and do a little cutting up as you go along. I'm a day old blade," the comedian's eye continued. "But I've had some close shaves getting to the studio on time for my broadcasts lately and I'm sure your love getting in a lather."

**Liquor Stores Open Longer**

Edmonton tipplers are in for a break.

Liquor Control Board announces that starting June 20, Edmonton's two liquor stores will be open 12 hours a day, from 10 a.m. to 10 p.m.

Each store will be closed half a day during the week. Main store on 100th will close Wednesday afternoon. South side store will close Thursday afternoon.

Similar systems will be used in Calgary and Lethbridge.

Announcement was made today by A. J. Mason, chairman of the liquor board.

# Pacific Air Reduces Heat

Cooler Pacific air moving eastward across Alberta today is bringing low temperatures to Edmonton with the mercury in the 50s and 60s.

Yesterday was hot on the prairies with temperatures ranging from 80 to 90 degrees. At Medicine Hat, in Peace River region, however, higher temperatures were 80 at Fairview.

A trace of rain fell locally this morning, but no precipitation is forecast for the week-end.

# Counsel Advances Name of Expert

Firm Lawyer Recommends Ex-New York Fire Chief

S. Bruce Smith, K.C. representing Northern Hardware Company Ltd., today advanced the name of former New York Fire Chief Harold J. Burke as "available expert" to investigate charges of fire department's inefficiency in fighting \$3,000,000 fire last March.

Mr. Justice G. B. O'Connor adjourned the investigation sitting until 10 a.m. next Saturday in order that T. E. Garfield, K.C., representing the City of Edmonton, might prepare a list of proposed experts. Probe into method used fighting Northern Hardware building fire, which burned for two days, was opened in Supreme Court last Saturday.

Mr. Smith told court his proposed expert has had 20 years experience in fire prevention and fire fighting work. Formerly fire chief of New York City, Mr. Burke, now of Caldwell, N. J., was assigned to U.S. Navy during war as chief of all Navy fire prevention programs. He has served on many Congressional investigations, Mr. Smith said.

## Italian Injured In Trieste Fight

TRIESTE, June 11.—(UPI)—One Italian was seriously hurt last night and several injured in pre-election attacks by Communists. The attack took place in the San Giacomo district, a Communist area. The Italians were returning from an election rally at which Italian Premier Alcide De Gasperi asked that all the Trieste free territory be returned to Italy.

## Two Dead In B.C. Car Smash

VICTORIA, B.C., June 11.—(CP)—Two youths were killed and five other persons injured in an automobile-truck collision late last night on the Island Highway, 35 miles north of here. Dead are: Ervin Koef, 19, and Raymond E. Pickett, 19, both of Cowichan Station, B.C.

## Close Check Asked On Atom Exports

WASHINGTON, June 11.—(AP)—Senator Arthur Vandenberg (Rep. Mich.) called yesterday for a close military check before atomic materials are sent abroad, "even to the friendliest of countries." The Michigan senator said he wants to be sure that the military balance committee approves in advance atomic energy commission decisions such as that which sent radioactive iodine to a research facility of the Norwegian military establishment.

## ARDENT ANGLERS ARE UNDER RESTRICTIONS

Recent government restrictions will prohibit anglers from fishing in the Spray Lake and Spray River in the Rocky Mountain forest reserve of the Banff area this summer.

E. S. Huestis, Alberta game commissioner, said today the Spray waters are being closed in order to conserve fish in the Spray Lakes power development area.

Fishing season in other waters south of the Bow will open June 16. Main stream of the Bow opened to anglers on June 1.

## Concordia Students In Fine Presentation

Black sheep Robert Raedecke stole the show last night in the dramatic presentation Ice Bound staged by the students of Concordia College.

The three-act drama by Owen Davis was enjoyed by an overflowed crowd at the college auditorium. As the shillies, no-good son of a rich mother who ignored him in her will, Robert was all hearts in spite of beard and hairy trousers. For Robert was an honest and cheerful rascal.

Scenes were all laid in the parlor of the Jordan homestead in Maine where old coal mine, medicine chest and horse hair sofa contributed to a mid-western country atmosphere.

Ellen Gettings as the servant girl played sincerely, as did Walter Radeke as Judge Bradford. Gerhard Miller with straw-mustache and beaver hat could hardly have resembled a country sheriff more had he been one.

Other parts were taken by John Gieslen, Alfre Hennig, Ellen Johansen, Betty Nielsen, Clifford Guesbert, Knut Ritter, William Bue and Ellen Logsdon.

## D-3, HE HOLLERS!

## Divot Diggers' Dream Looms Largely Locally

By JOHN McLEAN  
Bulletin Staff Reporter

Announcement last week that Hudson's Bay Company is seeking permission to make skiagraph tests on Prince Rupert Golf Course opens all kinds of new vistas for the divot-digging fraternity in these parts.

With the disclosure by the company that oil may lurk beneath the fairways and the greens of Prince Rupert, it can be expected, for instance, that nibble-wielders will be out in full force, blasting away with nine-irons in the hope of making a "strike."

It is not hard to picture a new trend in golfing gear. Tin bats and putter heads should quickly replace the Panama skimmer and spiked golfing shoes.

Overall, in checks to retain the sporty look, could take over from the light grey slacks of now worn. It is not impossible, too, that the "finger" of the golfer will come in for a change.

The "holier" "D-3" might easily replace the time-honored "fizz" of the golfing duffers. And think of the hazards! With derrick spotted across the fairways, the golfer will be called upon to exercise even more skill than in the past to reach the green.

Courtesy officials, just to make it harder, could even place the odd tee at the top of derrick, providing change of altitude now non-existent at Prince Rupert.

And for variety, at least one

By Stan Burke

Did you know that Edmonton is in daily communication with Russia?

Four times a day, a little group of men here have a nice chat with the Russians about the weather.

Their relationship is cool, however.

As a matter of fact they are just barely on speaking terms.

Edmonton is one of the few cities that have succeeded in penetrating the impenetrable.

As might be imagined, the men who have succeeded in performing this latter day miracle are scientists, not politicians.

They are the meteorologists in the weather office at the airport.

Every six hours they receive a message over their teletype system telling them how what the weather is doing in Siberia. And several times a day the Russians are notified what we are enjoying, or otherwise, in Edmonton.

All this is done by means of radio stations in Alaska which pick up and decode the Russian meteorological broadcasts and relay them across the continent by teletype. At the same time they send out regular roundups of the weather in this part of the world, also transmitted in code for brevity.

This is just one minor aspect of the complex communication service centre in the weather office.

Edmonton is one of the most important meteorological centres in North America.

Through the Edmonton office passes most of the vital weather information radiated in by a network of more than 50 observation stations scattered across the roof of the continent.

In the communication office, complex bits of equipment pick up this information and relay it to all parts of the continent through a complex of teletype networks.

Eleven machines operating on more than a dozen different networks link this office directly with hundreds of points from Vancouver and Winnipeg as far north as Eureka Sound, on Ellesmere Island, 750 miles south of the Pole and Thule, on the northwestern tip of Greenland.

In charge of weather forecasting for Edmonton and northern Alberta is Dean H. Smith.

With all the hundreds of stations linked in this network transmitting every hour, traffic is intensely heavy.

Broadcasting schedules are timed to the second.

Every station has exactly five seconds to get each message started over the wire. If they miss they have to wait until the lines are free.

A major attraction of the American southwest is Canadian Cadiz, a national park with entrance to the world's largest and most spectacular cave.

## SOMETHING NEW

City has sought technical advice in the matter of street paving. Now they have put the experts to work on the question of mowing lawns in city parks and boulevards.

Edmonton is the latest method of agricultural science. Hired for the summer to mow lawns are University of Alberta agriculture students Ken Eason and Al Church. So they have come up with no revolutionary improvements.

# The Case of Ray Miner

We are proud to have been able to re-print on this page yesterday the excellent article by Raymond Moley on honesty and fairness in journalism.

We are glad to have been able to publish this article on the responsibility of the press not because it expresses so splendidly our own views on the vital functions of newspapers, but because it serves in a way to explain an apparent discrepancy in our position in the current political situation.

The Edmonton Bulletin, in the larger sense, is a Liberal newspaper. It has always been a Liberal newspaper. And it perceives no reason in the future to depart, in any doctrinal way, from those Liberal views and habits of mind which have made Canada a great and progressive country.

But, being a Liberal newspaper, The Edmonton Bulletin still supports Ray Miner as Progressive Conservative candidate in Edmonton West.

And the reason it supports Ray Miner is because Ray Miner is, in our estimation, his outstanding citizenship by making an inestimable contribution to fair and honest journalism in this province in the manner outlined so capably by Mr. Moley in yesterday's article.

In the early 40's, for instance, the Calgary Albertan was in its sickly days. It was inept, colorless and small in size and thought.

With young Max Bell, Ray Miner took over the Albertan on July 1, 1943, and by the application of the same spirit of responsibility in journalism as enunciated by Raymond Moley, built the Albertan into a strong, courageous and honest

force for progress and good in the Calgary community.

In Edmonton, The Bulletin had languished for years as a poor excuse for a newspaper, timid in civic affairs, hesitant and fearful on all public questions and at-astraddle every fence that had two sides to it.

When the printers' strike occurred in May, 1946, and the Bulletin entered into an inglorious partnership with the Journal, the situation so far as the former was concerned, became even more impossible.

The Bulletin became a pallid shadow of its eastern-owned pal and was intent only upon raking in the advertising profits which occurred through the monopolistic bludgeoning of this unhappy alliance.

Again Ray Miner stepped into this unwholesome journalistic picture and again with Max Bell acquired, on January 1, 1948, The Bulletin that this community might have at least one newspaper worth reading and fighting for the welfare of Edmonton and Edmonton people.

For this reason, and without deserting its fundamental convictions of Liberalism, The Edmonton Bulletin earnestly and urges its readers to vote for Ray Miner in Edmonton West, as Alberta's outstanding citizen, as an institution in this community and as one of the most useful living Canadians.

It is a sense of public service that is needed in Ottawa no matter what party brings it home.

For this reason, and without deserting its fundamental convictions of Liberalism, The Edmonton Bulletin earnestly and urges its readers to vote for Ray Miner in Edmonton West, as Alberta's outstanding citizen, as an institution in this community and as one of the most useful living Canadians.

## Children on the Golf Course

The civic administration struck a strange blow at juvenile delinquency in this city when it instituted the rule that children must be off the golf course to walk around the municipal golf course.

The anxiety of the city to prevent children playing on the course is understandable—although there would be no temptation for them to play on those sacred acres and to play on the municipal golf course to accommodate them and sufficient equipment to interest them.

But the complaint about this recent prohibition does not relate to children who play on the course.

It relates to children who merely walk around with their parents when those parents play.

The other afternoon, for instance, a father decided to play around the course

and to take his eight-year-old son with him.

He wanted his son to go with him because he was anxious about the boy developing an interest in golf as a means of wholesome recreation.

But under the present ruling he had to pay 50 cents for the boy, the same rate as though the boy had been playing.

If this regulation is intended to increase revenue, it is a piece of pretty cheap cheating.

If it is intended to keep accompanied children off the course, it is exceedingly and diametrically opposite.

For children who learn to play golf and take a real interest in the game won't be out smashing widows and stealing from parked automobiles.

## The Nature of the Christian Church

Tomorrow is Trinity Sunday, one of the great festivals of the Church year. But it is not proposed to deal in a brief newspaper article with a subject of such complexity and profundity.

Rather we find it important to hark back to the Whitsun poet and discuss in a brief way the nature of the Christian Church.

Too much emphasis cannot be placed upon the true nature of the Church, the militant or earthly branch of which began on the first Whitsunday, because an improper conception of the Church derogates from the dignity and universality of religion.

It is this false and improper conception that gives rise to the unfortunate prevalent belief that one may be a Christian and live the Christian life without being one of the communions of the Church.

It is an impossible hope.

There is no Christian life beyond the

limits of the Church and its sacraments and its ministrations even though circumstances may make it necessary that this relationship with the Church be spiritual and not physical.

The creeds which are accepted by every Christian denomination stress the fact that the Church is "holy, catholic and apostolic."

The Church is holy because it is not a human society but a divine society and in reality the Body of Christ.

The Church is catholic in the sense that it exists through all time and through all space, bringing its sacraments and its ministrations to all colors and races in every corner of the globe.

The Church is apostolic in the sense that it was ordained by the Holy Spirit and founded by the apostles.

This is the only true view of the Christian Church.

Anything less is meaningless.

## ODDS AND ENDS By Harold L. Weir

### ousting Commies From The Teaching Profession

Twenty leading educators of the United States, including General Dwight D. Eisenhower and Harvard president James B. Conant, have got together in Washington and issued a demand that Communists be barred from the teaching profession.

I have never known twenty educators, in any country, to utter a more sensible request.

It seems to me that if the Communist must stand on the line to be eliminated from North America, we are thinking the place to be eliminated is in the schools and universities.

Miller knew the value of the indoctrination of children. He knew it so well that the generation which passed through his hands in his youth organizations will be that anti death.

And Stalin knows it too. The barbs of Communism are planned so firmly that children and in those who have fallen under Russian domination that Greece has established special schools to get those barbs out without pain.

It seems to be firmly established, then, that the method of carrying the poison of authoritarianism to the next generation should not be permitted to become that base in North America.

And it should be remembered that if education is the best

means of spreading Communism, then children, it is also the best means of keeping it out.

**Danger Not Prevalent**

It must be admitted that in a general way the employment of Communist teachers in Canada is exceedingly rare.

Teachers in Canada are educated persons and most of them are intelligent and only those few who are not intelligent have a quirk in their minds can be Communist.

Communism recruits its disciples from among three general types of people:

(a) Those who are too young to have maturity of reflection.

(b) Those who are so greatly ignorant that they never will have maturity of reflection.

(c) Those who entertain such psychological complexes that they are prone to be frustrated or a diseased mentality.

It is not likely that many teachers in Canada will fall in any of these classes.

There will be a few in the latter class in the normal course of events.

edge that countless children may be lacerated corruptly.

And such is the nature of juvenile fanaticism that the very flame-morose and perverseness of the one-lashed teacher might prove more attractive than the sane and sound views of the other thousands.

Intelligibility is always drawn to the unusual.

There are 32 Lord's Days in the year, giving sufficient time for the teacher to be so indoctrinated enough to fill them all up, thus crowding out thoughts of Him who was a Master.

In one respect I disagree most violently with the twenty avowed who have thus cracked down on the teaching profession.

They say that Communism is a religion to be taught, but not advocated in the schools.

In my opinion, for what it is worth, no type of political theory should be taught at any lower level than university.

Politics is something that should be studied with a wide background of history and economics. And that background is the only way to get the true picture of the Communist.

This brave and outspoken denunciation of the Communist in a comparative basis is a Christian theological college as an exercise in comparative theology.

One such mentally perverted man, who is a Communist, is a disgrace and a shame to the teaching profession, and should be expelled, such a totalitarian stand upon the presentation of know-

### Service, Humility

Editor, Bulletin.—Perhaps the Progressive Conservative Association realize the amount of under-statement. That could be. For I am not a member of that organization.

It could also be that Mr. Miller, in his capacity as a member of the House of Commons, made it his official presentation for outstanding citizenship to Ray Miner, as a member of the House of Commons.

If it is intended to keep accompanied children off the course, it is exceedingly and diametrically opposite.

For children who learn to play golf and take a real interest in the game won't be out smashing widows and stealing from parked automobiles.

This spirit of service and humility denotes strength, combined with that bulldogged tenacity which, by his display, if the occasion demands it; these are the qualities which make a member of Edmonton West.

### Shortage Of Hogs

Editor, Bulletin.—We were quite interested in an article in your Friday issue, "Producer Blamed For Hog Decline."

You cannot blame the producer or the packing plants. There is just one to blame, the income tax.

If you would take the time and get among the farmers I feel sure you would see convinced the cause of the present shortage.

South Side Farmer, Edmonton.

### Dogs and Children

Editor, Bulletin.—In answer to Mrs. Anderson's story, Mr. Taxpayer, turning dogs loose to wander round the city, tramping down gardens, digging them up, or being a threat to children and dogs, is just the same walking up to the first person you meet and punching him in the nose.

It is just plain disregard for a citizen's person and property. Why should people be forced to protect themselves from such dogs?

People who wish to keep them should accept the responsibility of their own actions.

Every dog is a good one in his master's opinion, but I'll bet there are a few dogs here who really would love to train a dog.

I am not a dog-lover, but I do not wish to be dogged on by people who think dogs are their property.

As for Mr. Taxpayer's remark about being, if he were to be a dog, he would rather be a dog than a man.

Anyone who would compare dogs to human beings is mentally deficient anyway.

Another Taxpayer.

### Instead Of Books

Editor, Bulletin.—Is not education the heaviest burden on the taxpayer?

When a boy reaches 14 he long for tons instead of books. His mind is not on books, but on the latest fashions in the city.

Some must do the construction. We have to have to depend on tradesmen from other countries when there are so many youths in our country who give a proper chance, could be a credit to every city in the land!

### Vets At A Discount

Editor, Bulletin.—Personally I am not a big fan of the Liberal in the coming federal election. I am not a big fan of the Liberal in the coming federal election.

During a pause in the victorious war, the National Government was in a position to give a small discount to the veterans.

It is a pity that the National Government was in a position to give a small discount to the veterans.

# Tom Brown Stars In Fight Yarn

Some of the greatest fight scenes ever filmed blended with a heart-warming and chuckle-filled romance in "The Duke of Chicago" starring Monday at Strand Theatre.

Based on an original screen play by Albert deMond, the picture revolves around the difficulties of a former undefeated middleweight champion who is forced to return to the ring to make quick money.

Tom Brown enacts the title role, with all the skill and charm of the veteran actor that he is, and blonde and lovely Audrey Long contributes strongly as the girl who believes in her man despite anything that happens to him.

**FIGHT STORY TOLD**

During the movie, which is told in the same length of time that it takes to fight a 15-round bout, the behind-the-scenes story of a championship prize-fight is told. "Duke of Chicago" emphasizes the clean side of boxing, pointing out that the majority of fighters are honest and clean-living men.

Supporting cast of "Duke of Chicago" is strong with veteran performers who add to enjoyment of the picture. Sheets Gallagher, one of the best-known names in show business, makes his first screen appearance in eight years in the role of Brown's manager Matt McHugh plays his trainer.

Lola Hill lends a chill beauty to the role of the snobbish socialite who loves her man to her sister. Other parts are played by Grant Withers, Paul Harvey, DeForest Kelley and Dale Van Sickel.

George Blair directed for associate producer Stephen Auer.

A boy's single-handed crusade to end war is the unique theme of the "Boy With Green Hair," arresting new film starting Monday at Empress Theatre.

Starring Pat O'Brien along with Robert Dyan, Barbara Hall and 11-year old Dean Stockwell, this stimulating piece of film fare is produced in color by Technicolor.

Young Stockwell has the title role as an American orphan who, unaware his parents were killed in a bomb raid in London, comes to live with "Gramps," and elderly distant relative who used to be a circus performer. Happy and secure for the first time, the youngster gets a severe emotional shock when he accidentally learns of his parents' death.

**GREEN HAIR**

The following morning he wakes up to find his hair has turned a brilliant green. The phenomenon disturbs everyone in town and arouses hostility of his schoolmates, but in the picture's most unusual sequence he learns the reason for it...other war orphans want him to lead a juvenile crusade against war, using his green hair to attract attention.

Fired with the idea he acts out eagerly but finds public opinion solidly against him...a situation

# Dr. Powell

## Dies at 77

CALGARY, June 11.—(CP)—Rev. Dr. Thomas Powell, 77, died here yesterday.  
Born at Radnor, Hertfordshire, England, he was brought to Almont, Ont., as an infant. He lived

at Almont until 1900 when he came west of Olds, Alta. He was a graduate of Western Theological College, Montreal. He held pastorate at Olds, Maple Creek, Lacombe, Grace Church, Edmonton, and Scarborough United Church in Calgary.  
Dr. Powell was superintendent of missions for the Methodist Church in 1908 and continued in this office for the United Church until 1942 when he retired from active ministerial work. Since his

retirement he has served as supply minister at various churches. He was president of Methodist conference in 1933 and Alberta United Church conference in 1938.  
His wife predeceased him in Calgary on July 23, 1947.  
Survivors include a sister, Mrs. J. R. Flegg, Edmonton.  
WORCESTER, Mass.—(UP)—Din Q. Q. a native of China, has asked probate court for permission to change his name to Thomas Din Quong Eng.

# Employer Chided In Calgary Wholesale Theft

CALGARY, June 11.—(CP)—There is some talk on an employer's part to protect his employees from the temptation of theft, suggested Magistrate G. H. Rose in police court yesterday, as he imposed fines proportionate to the amount of theft involved on seven employees of the J. H. Ashdown (Wholesale) Hardware Co. Ltd.

"There is something wrong with a system where employees can so readily walk off the premises with goods belonging to the employer," he said.  
"Not only is there a duty on the part of the employer to respect his employees' property, but I do feel that there is also a duty on the part of the employer to provide some check against wholesale theft, as was going on in this case."

# Calgary Meters Net City \$16,000

CALGARY, June 11.—(CP)—Calgary parking meters, grossed \$9,831.67 from Sept. 25 to May 25, 1949. W. H. Parlin, city treasurer, said yesterday.  
The city received a net profit of \$16,000. This money is already set aside for street parking.  
Of the gross receipt, \$8,817.71 was taken from the 377 meters, and 30 months.

# He Must Be Top Salmon Angler

EDMONTON, June 11.—(CP)—It could be said that Morgan of Montreal is in a 1940 class by himself as a fresh-water salmon angler. In Montreal his wife had the chance today of having a 44-pound salmon carved up after receiving it from Mr. Morgan who caught the salmon in the Grand Cascadia river in the Caspe last Monday.

# Yankees Nudge Cubs. Thrilling Battle

## 'Fordham Flash' To Manage Cubs

BOSTON, June 11.—(AP)—Jolly Charlie Grimm yesterday quit Chicago Cubs' bench for its front office and Frankie Frisch became his managerial successor, signed for a three-year term.

That shake-up was described by owner Philip K. Wrigley as "the best way to get the club ahead."

### GRIMM'S IDEA

Wrigley said that Grimm, manager of the Cubs on and off for about 14 years, suggested his own transfer as the club's vice-president in charge of baseball operations and Frisch's appointment as his successor.

Grimm also a veteran pilot in the National league ranks, managed St. Louis Cardinals and Pittsburgh Pirates, in between a Boston baseball broadcasting assignment, from 1933-1946.

Again saying he was "through forever with managing," Frisch returned to the airways in New York in 1946. This season he again was lured away from his microphone by Leo Durocher, though persuaded him to resign New York Giants. He broke in with that club as the "Fordham Flash" in 1919, as a catcher.

Recently Frisch had a brief managerial fling when Durocher's association, also the latest suspension, was ended.

### "MOVE WAS NECESSARY"

"I felt the move was necessary to give the Cubs another baseball man in a executive position," Wrigley explained. "Charlie will live longer in his new job."

## T'co Oilers Drill RCAF

Texas Oilers took a one-game lead in the Senior B baseball league last night by whipping RCAF 10-4 at Clarke Stadium. The Oilers scored five runs in the first inning and never were threatened.

Charlie Craig walked a two-run homer for the Oilers in the fourth inning while Bob Barlow and Buck Pughan lined out similar blows for RCAF in the fifth.

Senior B action for the week-end will be confined to a pair of Sunday games. At Clarke Stadium, Westmount plays Burnaby and at South Side Athletic-Canadian, Canucks meet RCAF. Both games are slated for 3 p.m.

## Harvesters' So Woodwards 10-9

International Harvesters reaped a 10-9 triumph from Woodwards in an Intermediate B football league game at Burnside Park last night. Woodwards closed with a three-point scoring drive in the last two innings, but fell one run shy of overhauling Harvesters' long H.

## Anavets Triumph

Anavets triumphed over Height 8-2 in a City Minor Football league game last night.

## Ruth Hayes Uncorks No-Hitter for Walkies

Ruth Hayes "made it stick" last night that Walk-Rites have a potent pitching staff, though enough in fact to serve up two no-hit ball games in the space of five days. While right-hander Hayes supplied the thrills where the second game was concerned, Mortons threw in a few of their own.

The tall red-headed Walk-Rite pitcher made five mistakes as he hurled his no-hitter, blanketing South Side Athletics on two walks, both coming toward the end of the seventh inning. Senior Lady's Football league fixture at Kingsway as he began.

Could hurler be the other "dream game" against Burns 6-5 after an uphill fight in the opener.

Walk-Rite Mary Gamble drove home two runs in the second inning with what proved to be the winning run in their game with Athletics. Two more runners in the fourth frame and three in the fifth completed the scoring.

In the ladies' minor league, Burns was nominated for pitching chores by Morton's manager Ron McBeth and before he could get a walk-off Polk Spudok in relief she had answered five runs on two errors, a walk, a single and a clean home run by Terry Perreman.

Spudok's untimely down and out in charge the rest of the way. Morton kept chipping away at Burns' lead to win the game in the final inning as Mary Mortons, on a follow-up, advanced to second on a passed ball, to third on Betty Morrison's single and finally home on another passed ball.

## Ed Morris Smashes Two Grand-Slam Home Runs

CALGARY, June 11.—Paced by catcher Eddie Morris, who blasted out two grand-slam home-runs to drive in eight runs for what is believed to be a league record, Edmonton Eskies thumped Calgary Buffaloes 13-10 in a wild and woolly Big Four baseball league clash here last night.

Morris, who recently joined the outcasted Eskies from Great Falls of the Pioneer circuit, slamed out his homers in the seventh and eighth innings. Each time the blows served to give the visitors the lead.

There was a regular parade of homers. In addition to the Morris' Esk four masters came from the mound for Eskies in the eighth and ninth innings. Each time the blows served to give the visitors the lead.

## 'JERRY SCALA NIGHT' WILL HAVE TO WAIT

BAYONNE, N.J., June 11.—(UP)—Jerry Scala night, the big wing-ding baseball fans here were going to have at the Yankee stadium next Tuesday, was all off yesterday amid great lamentation.

Folks in Bayonne, proud that home-town boy Jerry had reached the major leagues with Chicago White Sox, were not to give him a big celebration when Chicago came to town to play the Yankees.

But the way things are now, Bayonne's fans won't be at the Stadium next Tuesday—and neither will Scala.

Thursday the White Sox sent him back to the minor leagues with Oakland of the Pacific Coast league.

## Jumbled Ring Picture To Clear Up Monday

Edmonton's muddled boxing situation is expected to be cleared up Monday night, according to Alex Wynnchuk, secretary of the Edmonton Boxing and Wrestling Commission.

Wynnchuk, better than a horse on recent press reports concerning the issuing of boxing permits, announced today that night the EWBA will get together at the Stock Pavilion Monday evening.

Said he: "Undue criticism of my awarding a boxing permit to Jack Berry has precipitated this meeting."

Earlier this week Wynnchuk is reported to have granted Berry permission to stage one prize-fight at an early date. However, Dr. Lee Duddy and Fred Kemp, senior members of the EWBA, denied any knowledge of Berry's application and right away Wynnchuk was in hot water.

In defense of his action, Wynnchuk disclosed that since George Mason, erstwhile boxing promoter, had shown no inclination to continue his show for the summer, "I gave Berry a permit as a concession."

No one on the EWBA is certain that Berry's promoter permit is valid. But he is likely to be officially authorized to promote one card after Monday's contest.

Members of the six-man EWBA are Wynnchuk, Dr. Duddy, Kemp, Charlie Croft, Dr. Kerdley Allen and A. C. Shute.

## Ryan Plays 'Lazzeri Role' As Visitors Triumph by 7-6

Calgary Puritys edged Cubs 7-6 at Renfrew Park last night to gain a tie for first place in the Big Four baseball league standings with their victims.

And right off it can be noted that Jim Ryan, the bespectacled gent who handles the first base chores for manager Les Edwards' Cubs, came out of the contest with more than just an inkling of how Tony Lazzeri felt on that World Series afternoon back in 1925.

Veteran followers of the fall classic will remember the late New York Yankee infielder's valiant bid for a homer off the 5th-inning offerings of St. Louis Cards' Grover Cleveland Alexander.

Well the Ryan experience was somewhat the same, barring, of course, the World Series backdrop.

The Cubs firstcutter came up in the ninth inning with Cubs trailing Calgary Puritys by a single margin. Tying run, as represented by "Slim" Gorman, was perched on second base.

In this spot Purity chucker Armando Fernandez, who had taken over from Jack Letty's Mills in the eighth, fed Ryan a run right across the bases. Next thing the ball was dropping over the left-field fence. Cub fans were right ahead of Ryan and the Cubs (it seemed) had come from out of the race to tie the game.

## 'WOODENFACE' HURLS NO-HIT, NO-RUN GAME

BRUCE CLARKE, 13-year-old right-hander who won the Buller's Woodhouse hurlers' last season, tossed a 3-0 no-hitter on the part of the Maple Leaf National Baseball league last night.

Clarke's "dream game," for the Dodgers, came against the Indians. He had good control, giving up but two walks over the seven-inning route.

## Gasco Nose Out Prudhams 12-10

Gasco rolled to a 12-10 victory over Prudhams in South Side intermediate football league game at South Side Athletic Grounds last night.

Max Welterpeld led Gasco's 16-man attack on two Prudham pickers with a pair of singles and a double in five times at bat. George Giltner soaked a home run and a single, while Don Moore, Bill Wagner, and Arnold Under each collected two safeties for the winners.

Art Roberts was the big slugger for Prudhams, bathing out a home run and triple.

## Gov't Medical Promotion Held Top C'wealth Trend

SASKATOON, June 11.—(CP)—Government promotion of medical services, although distrusted in some cases by doctors and openly opposed in others, is one of the most important trends of medicine in the British Commonwealth in the last 10 years, commonwealth doctors indicated.

On a Canadian tour, Dr. J. O. Mercer, secretary of the Commonwealth Medical Association, said that the national health service in Canada is an early possibility as the three major political parties all have platforms advocating the plan.

Dr. Charles Hill, secretary of the British Medical Association, said that the government is apt to forget the importance of new medicines between doctor and patient, and leaving the profession free in its own field.

The doctor is paid on a fee-for-service basis with the patient's payment by the government of the financial burden of his medical payment, he said.

Dr. A. H. Torkin of South Africa said that medical care is a move on foot to give free hospital care to everyone. Medical care is provided to low income groups through different medical schemes with some government financing.

IT IS THE CUSTOM OF YOUNG KNIGHTS SEEKING RE-  
NOW TO HOLD SOME BRIDGE OR FORD AGAINST  
ALL COMERS. SO VAL AND GAWAIN ARE NOT SUR-  
PRISED WHEN THEY ARE CHALLENGED AT A FORD.

"HALT!" CALLS A CLEAR YOUNG VOICE, "I HOLD  
THIS FORD. WHO CROSSES MUST JOUST WITH ME!"

THEY TOSS A COIN AND GAWAIN WINS. "BE NOT  
TOO ROUGH," WHISPERS VAL, "FOR JUDGING BY  
HIS APPEARANCE, HE IS ONLY SOME UNTRIED YOUTH  
SEEKING EXPERIENCE."

THE YOUTH CHARGES INTO THE FRAY WITH MORE  
IMPETUOUS COURAGE THAN SKILL, AND THE VETER-

AT LAST HE IS ABLE TO SCRAMBLE TO HIS FEET: "I  
AM LEARNING TO BE A GREAT WARRIOR SO I CAN GO  
TO KING ARTHUR'S COURT AND BECOME A KNIGHT."  
THEN HE ADDS MISERABLY, "BUT FIVE TIMES HAVE  
I JOUSTED AND FIVE TIMES MET DEFEAT!"

"YOUNG IDIOT" SAYS GAWAIN, ROUGHLY, "YOU WILL  
BE MAIMED OR KILLED BEFORE YOU ARE OLD ENOUGH

## A BIRTHDAY PARTY

THE Teenie Weenie women always get up a special meal on the General's birthday. They shoo the Teenie Weenie Cook out of the kitchen right after breakfast on the big day and set to work preparing the food the General likes best. All the little people look forward to the feast, for Teenie Weenie women are excellent cooks.

Meat pie is the General's favorite dish, which may account for his plump appearance. The Lady of Fashion makes it so delicious there is never a single bite left, no matter how big the pie. The little lady rolls out several paper-thin sheets of wheat pastry. Each sheet of pastry is thoroughly rubbed with black walnut oil and several are used to line a large bottle top of metal. Next, a half-thimble of chopped frog ham is browned in a Teenie Weenie skillet and put into the pastry-lined pan together with eight or ten grains of salt, some black pepper and three drops of onion juice. Three fresh green peas are peeled of their outer skin and cut into the pie as well as some grated carrot and tiny cubes of potato. Then she covers the top with pastry and the pie is baked in a slow oven.

Of course, there are pickles, jelly and jam, besides a salad of chopped young dandelion leaves and grated carrot which is served on crisp watercress leaves. For dessert, the Lady of Fashion makes one of her famous cakes, which is beautifully iced and served with sassafras tea and wild strawberry slices.

When the cake had been baked and decorated, the Lady of Fashion carried it up to her room and

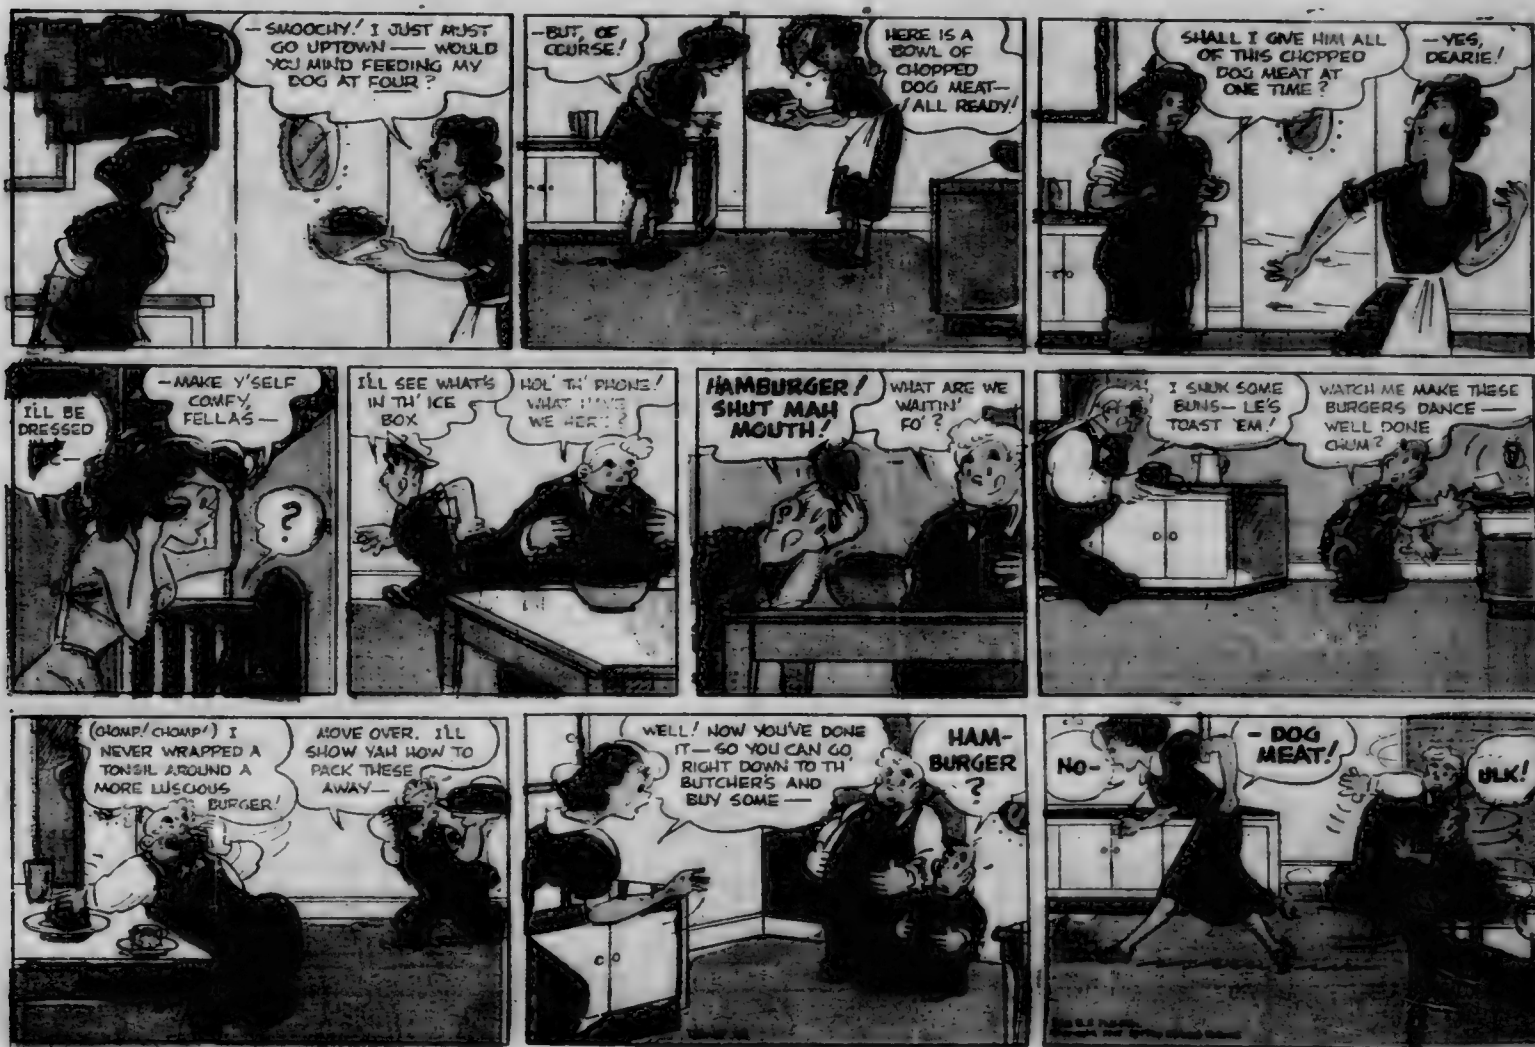

THE TEENIE WEEENIES  
BY SUM-DONKEY.

set it on the bed. She always likes to keep the cake for a surprise. When it is brought to the table for serving, that is one of the big events of the meal.

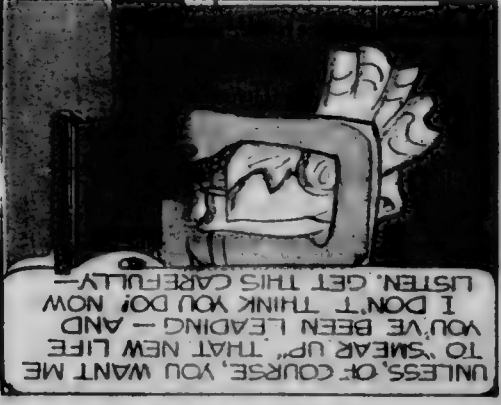

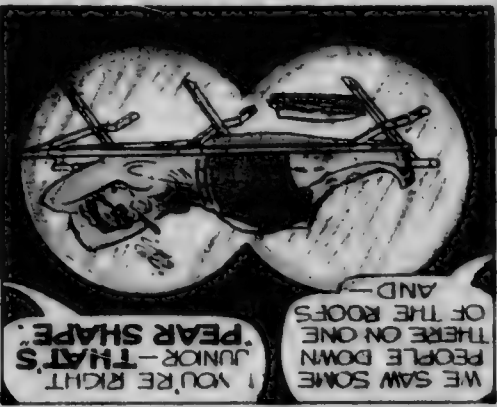

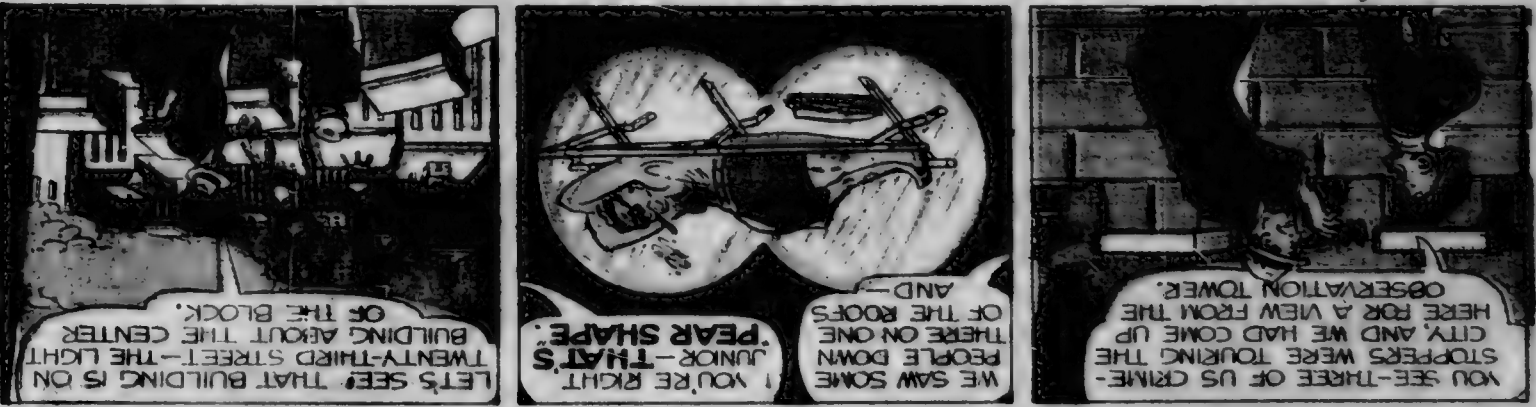

Just before mealtime the Lady of Fashion went to her room to change into a clean dress. When she opened the door she saw a swarm of black carpenter ants running all over the place. Some were sampling the cake and others were coming and going through the open window. The little lady screamed for help. Grabbing a broom, she frantically tried to

chase the ants out. Tess, another Teenie Weenie woman, came running with a broom and the two began chasing the insects. When they had nearly cleared the room of ants, a bumblebee flew in and added to the general excitement. But finally they managed to get rid of the pests after a terrific battle.

Some of the icing had been eaten off the cake, but the little women quickly repaired that. The General and the other Teenie Weenies ate the cake without the least suspicion of the unfortunate incident.

By J. D.

The dancing guests  
They beat their breasts  
For they heard no loud bass-  
soon.

Which by way of crude para-  
phrasing of the Ancient Mariner  
describes the predicament of  
some 400 guests at a grand ball  
in the swank Macdonald hotel.

Ballroom was rented by a  
prominent social and charitable  
organization with proceeds to go  
for some worthy cause.

The committee in charge of the  
big event wanted for weeks  
with prize-winning enthusiasm.  
Invitations went to the very best  
people. A bid to a grand ball  
eased by this organization is  
something that your young  
Edmontonian proudly displays  
to his friends as "indubitable  
proof of having 'arrived' so-  
cially."

Of course it was one of those  
brilliant formal affairs, where  
your gallant swain proves that  
chivalry still lives by suffering  
the tortures of starched shirts  
and choking collars while milady  
is a shimmering vision in a  
flaring gown that is superabundant  
in front but takes an awful  
bang at the back.

**PAID FOR PAPER**  
Tickets percoupe made a  
five-dollar bill look very anemic  
indeed.

But nobody kicked about pay-  
ment rather handsomely for the  
honor of attending such a posh  
affair. For those who dance  
must reimburse the paper.

What did cause chagrin was  
that no paper showed up.  
Tribulation of the guy who  
got tangled up with the Ancient  
Mariner was multiplied 400  
times.

The guests were met  
The dance went well  
But no music did they get  
What happened was simply  
this. Somebody (is dear lady we  
are told), overlooked the im-  
portant matter of engaging an  
orchestra. She later explained  
she understood the regular Mac-  
donald orchestra would play for  
the grand ball. But the Mac  
orchestra was otherwise engaged.  
The ballroom had merely been  
rented for the night.

**WHAT TO DO?**  
As time filled the guests be-  
gan to show signs of uneasiness.

Sweet young things not tired of  
giving the critical eye to outfits  
worn by other sweet young  
things. The assembled hostess  
staring stanch and collars  
under their collective breath.  
Everybody had to fall back on the  
weather to keep the conversation  
alive.

There was quite a "hubbub"  
among committee members  
sponsoring the dance over find-  
ing the pitifully empty hand-  
stand.

It was mighty embarrassing  
for the social convenor.  
But Edmontonians are a  
dauntless breed.

A call went out for volunteer  
musicians in the crowd.  
A fiddler, a piano player and  
a horn leader or two were soon  
up on the stage and the dance  
was underway.

There's a happy ending.  
Everybody had a swell time  
with the volunteer musicians  
hailed as the heroes of the even-  
ing.

# Murder Hearing To Open Here Monday

Leo Francis Burke, charged with the knife-slaying of his brother-in-law, James W. Holmes, will stand trial for murder here Monday morning before Hon. Mr. Justice J. Neil D. Maclean, KC, will defend Burke.

Burke pleaded not guilty when he was arraigned before Hon. Mr. Justice C. J. Ford Tuesday as the June assizes of Supreme Court opened.

Brother of the accused saw wife of Holmes, Mrs. Frances Holmes also appeared for the case at the May 15 hearing.

**SAW BLADE**  
Burke testified at that time that Holmes struck Burke following an argument. "I saw him hit him with a kitchen knife," he testified. "I killed poor father. Can an ambulance?"

The Holmes girls also testified at the preliminary hearing that Burke pulled a knife from his pocket and opened the blade in the front room of the Holmes residence just before their father was stabbed.

## Plan for New Capital Outlined in Novel Book

**PLANNING CANADA'S NATIONAL CAPITAL.** By the National Film Board and the National Capital Planning Committee. If you're the type of person to whom the idea of planning a proper town seems like a proper idea, here is a new experience for you.

Its "Planning Canada's National Capital" from attractive, unusual front cover to a bird's-eye view of the back page, it presents an impressive story of unique ideas—the plans of seven countries. You find how they are planned and financed, how they reflect the growth and power of the nation.

Ottawa is treated in considerable detail from the early 19th century through the present. It shows how the city has grown and how it is being planned for the future.

Under the subtitle of "Achievements and Adventures of David Thompson," Canadian every-day history is presented in a series of chapters.

Under the subtitle of "Achievements and Adventures of David Thompson," Canadian every-day history is presented in a series of chapters.

The story begins in the London of 1781 where young Thompson is a charity boy apprentice to the Hudson's Bay Company. It continues through his struggles against adversity and greed among the fur traders in the new country, his unique commitment in assisting the Hudson's Bay Company in the Canadian prairie, and his ultimate recognition as the greatest land geographer ever to have been charted West. Unfortunately, it ends before recounting Thompson's exploratory work in British Columbia to whose famous river he gave his name.

If there can be criticism of a book so refreshing in its style and so vivid in its presentation of historical facts, only the portrayal of the central figure's earnings and spending lack can be counted. Mr. Thompson, making history at less than 30 years of age, seems to have a deficit in his pocket. Such an omission is a pity.

Even so, it is a warm and interesting character whose determination and enthusiasm may be admired as he travels westward across the bushlands and prairies of Canada, making the unknown known and rivers with names like "Mississippi" and "Mississippi."

**THE JOURNEY OF SIMON McKEEVER.** By Albert Macmillan and Stewart Lee. This is a simple story of a man's life, a life of a man who is a man of the world. It is a story of a man who is a man of the world. It is a story of a man who is a man of the world.

## Pops Concert Rehearsal Shows Conductor's Work

By Stan Burko

Like most people, you have probably wondered what real purpose is served by the man who stands out in front of the orchestra and waves the stick.

Well you ought to go around and attend a rehearsal and you'll soon change your idea of what a conductor does.

I watched my first rehearsal last night as the Edmonton "Pops" Orchestra prepared for its first concert.

During rehearsal, all eyes are on the conductor. He talks continuously to his musicians.

"Don't lag," he commands and a finger points out to indicate the error.

"Softly, softly," he says and the musicians respond accordingly.

## Video's Future Full of Vagaries Viewpoint of Manufacturer Gulf-Wide From Audience

By Don Frach

Television—cure or a blessing? There are, apparently several versions of what this new advance of science is going to do for civilized man.

Don Frach, president of the Canadian Manufacturers' Association, told that it was going to be a "great, new, industrial giant which will eventually revolutionize Canadian life socially and economically."

Speechmakers told the gathering television was the biggest peacetime happening and opportunity since introduction of the motor car, in terms of jobs, wages, increased standard of living and baby factories.

With their eyes in big manufacturing jobs the manufacturers were told Canada should require, within a few years, 250,000 television sets annually, worth \$20,000,000 to \$75,000,000.

**MATERIAL DEMAND** It would require, they were told, 2,000,000 pounds annually of copper wire and connectors, 1,000,000 pounds of aluminum fabricated into various shapes and sizes, 4,000,000 pounds of glass in bulbs, 5,000,000 board feet of lumber, also solder, insulating material and many thousands of hours of skilled labor.

Enough for the materialistic side of the question? The speaker said, "Not making one big happy family. New York writer Herb H. Hunk says, 'It's a real life—the innocent soul of man which turns out to be a wolf in casual clothing.'

"Television, that crowning miracle, first was touted as the likely savior of the home—the soldering iron to mend our fractured fireside."

"According to advance publicity, television forecast a return to the halcyon untroubled past, a time when the family was a family, and the neighborhood was a neighborhood."

"It develops this may be so much provocation as to the possibilities in television, all leading to the same end—the family unit with more disruptive power than a red-headed housewife."

Conversely, it has been said that the television set is the most important piece of furniture in the home. It has now become a battlefield.

**NO AVERAGE LEVEL** "In the first place no child of average intelligence can stand an adult TV program as we have it, with its taste about whether to view the latest news or the latest of the 'Mits of the Critics'."

"There are, oddly enough, people who cannot abide wrestling matches, prizefights, ball games, acrobatics, dancers, jugglers, and cockle programs. There are also people who cannot happily look, read or even work constructively when a voice set is operating in the same room."

"It finally comes to this, with its mad moodiness, its outbursts of rage, its bawling and its Grandmotherly with the children. There seem to be only two choices—either buy one for everybody."

## Best-Dressed Woman Gets Married Again

MANHASSET, N.Y. June 11—(UPI)—Nancy "Slim" Hawks, one of the 10 best dressed women in the world, married producer Leonard Hayward yesterday a few hours after she received a final divorce decree from movie producer Howard Hawks, it was disclosed.

The couple left for a "secret" honeymoon immediately after the ceremony at the estate of William S. Paley, Columbia Broadcasting Company president, who was guest of honor at the wedding.

Hayward, 38, was a former producer of "Hollywood" and "South Pacific." He is now a producer of "The Great Gatsby" and "The Great Escape."

Hayward was recently divorced by movie actress Margaret Sullivan.

## Piano Recital Said Success

Pupils of Mary Elfrida Luck presented a successful piano recital recently in Garneau School Auditorium.

Total of \$12.50 was donated to the recital for the crippled children of the University Hospital.

Soloists, duets, and two piano selections were played by pupils of Garneau and University elementary schools.

## June Brides-Elect Enjoy Merry Pre-Wedding Parties

Caught in a merry-go-round of activity during the sunny month of June are many brides-elect. Shopping-sprees, teas and parties are keeping future brides on the hop from morn 'til night.

They're busier than bees as they cope with the multitude of detail so necessary for the smooth running wedding they all desire. Crystal, china and silver patterns are being chosen with painstaking care while linens are receiving much consideration from this summer's brides.

Between shopping and planning the starry-eyed brides-to-be are being honored at showers and parties. Opening daintily wrapped packages are Phyllis Sutton, Eleanor Perraton and Doreen Muir as their big day approaches.

Preparations are still being made by Betty Crawford, Leona Taylor, Dorothy Mowry, Lois Patterson, Jacqueline McKim, Alys Bradley, June Martin and Baba Scarborough.

## COUSIN FROM MERRY OL' ENGLAND VISITS HERE

CANADA'S BEAUTIFUL PRAIRIES are a treat for Joyce Rookwood, right. She arrived in Edmonton recently to visit her uncle, Maurice Rookwood, and his family. Joyce finds much in common with her Canadian cousin Iris Rookwood. Both girls find they share an interest in pretty fashion, house and dog personal matters. Joyce was amazed to see the vastness of Canada and our natural wealth.

## MOTHER AND DAUGHTER SHARE SUMMER GARDEN VIEW

TWO LOVELY SMILES from a lovely mother Mrs. P. C. Holden and her daughter Frances complement the perfumed blossoms of their Roswood home garden. Frances is home from Toronto for a three-week leisurely holiday. Frances has completed two years of a nursing course at the Toronto General hospital and says emphatically that eastern people come from a land apart. She likes Toronto but her heart belongs to the west.

## Women's Press Club Meet Draws City Writers

A week chock-full of luncheons, teas, receptions and dinners, formal and otherwise . . . is in store for members of the Canadian Women's Press Club.

The eleventh triennial of the press club will be held at the Vancouver hotel, Vancouver, July 20 to 25, and more than 80 women journalists will gather at the coast from all parts of Canada.

More than 40 Vancouver members will welcome the 80 out-of-town guests.

Highlighting the entertainments scheduled for the visiting journalists is a formal dinner being held by the Premier of British Columbia in the ballroom of the Empress hotel in Victoria.

Among those expected to attend from Edmonton are Mrs. Allan Cleland, Mrs. E. H. Gowan, Jean Richards, Jane Becker, Isabel MacMillan, Mrs. Eugenie Myles, Dolores Kimball, Nellie MacMillan, Mrs. Rose Henderson and Louise O'Neill.

## HOME TOWN LOOKS WONDERFUL TO TRAVELLERS

BACK FROM A SEASON of skating with the Ice Capades show, Janet Matheson, left, is home for a five week holiday. She brought friend Lorraine Vignier of the Vancouver for the Edmonton vacation. They are both guests of Janet's mother, Mrs. Eva Matheson. The girls will proceed from here to Atlantic City where rehearsals for next year's show will soon get under way.

## Summertime Is Fun For Our Little Chief

Dear Tawasi:  
Bright sunny days cause Little Chief to think of all the many things people do in the summertime. When he sees the warm sun high in the blue sky he thinks of picnics, hikes, swimming and gardening.

Just like many boys and girls, he's been having a busy time now that summer is just around the corner. Because the sun has been so very hot this week, Little Chief has been watering his garden more frequently than usual. First, he loosens the earth around his plants and then he waters them for an

hour at a time. He thinks it is better to do this early in the morning or after supper since the mornings are cooler at these times.

**FLOWERS BLOOMING**  
Already Little Chief has some flowers blooming in his own garden. Laughing faced pansies are in bloom and great pink peonies. Little Chief has a sick friend to whom he brought a sick bouquet of flowers this week. He knows sick people like to be remembered and they like to receive flowers.

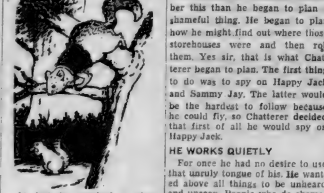

Because it was so very hot yesterday Little Chief headed for the swimming pool. Quickly he took off his clothes, jumped into his swim suit and dove into the cool water. He had a great time with all kinds of boys and girls who thought the swimming pool was a good place to cool off. They had lots of fun in the water and had races and all the time their fun was being supervised.

The busy little fellow went on his during the week. With his hat on, he walked across the sweetly smelling meadows away from the city to a cool stream. Little Chief and his friend found it very fun to cool off in the stream. It was lots of fun. Because it was only a little stream, they didn't bring their fishing rods.

# BURGESS BEDTIME STORIES

By THORNTON W. BURGESS  
Some people have no sense of shame.

And do most awful things. You wonder why it is that not in praise of them ever arise. I am sorry to say that Chatterer the Red Squirrel is one of these folks. He comes very near to being quite shameless.

At last he reached a place where he could look down and see his cousin, Happy Jack.

Now as he sat in the top of a tall hemlock tree nursing his faded wrongs, his wife were busy trying to think of some way to get even with his neighbors for laughing at him when Buster Bear gave him such a shaking and terrible fright. Getting even with Buster Bear was quite out of the question. He simply couldn't do it at present anyway. He would have to wait until he was strong enough to do it.

At present, he would have to wait until he was strong enough to do it. He would have to wait until he was strong enough to do it. He would have to wait until he was strong enough to do it.

# Campbell No. 1 May Pug Back

By Don Flach

Redwater Leasehold's Campbell No. 1 may decide to play hardball with the Lower Cree-taceous and take production from the formation which gave encouraging showings several weeks ago. At last report the well was still drilling in green shale at 4,511 feet. It is considered unlikely that oil-bearing D<sub>3</sub> will be encountered before the fast approaching 5,000 foot level.

Test taken at the well last May 11 gave a 400-foot rise of oil of approximately 50 gravity in one hour. The rise was accompanied by a slight gas blow. The well, located on 144-328-25-24, is about 15 miles northeast of Edmonton.

## FURTHER TESTS RUN

Anglo-Hume Woodstock No. 4 and No. 5 which recently established 12 success have conducted further tests. The No. 4, testing the interval from 4,000 feet to 5,000, got 60 feet of oil and gas. The interval is to be run. No. 5 runs a test of the interval 4,000 to 5,045 and recovered a gas flow that reached 40,000 cubic feet per day in addition to an oil flow that hit the surface 30 minutes after test was opened.

Western Leasehold's Redwater 21-7 was completed at 3,212 feet and established initial potential of 1,664 barrels daily during a four-day test. Western Redwater 31-0 is running production of 1,000 barrels per day. The well is located on 144-328-25-24, is about 15 miles northeast of Edmonton.

## CALMONT WELL FLOWING

Calmont-California No. 4 which was shut in to be built, is now flowing again at the rate of seven to eight barrels hourly.

B.C. Recoveries No. 1 is at the ABC and the oil content of the fluid recovery is new 80 per cent as compared to 60 per cent in the initial stages of the operation. The Shinkley and the oil content of the water are both shut in and Western Canadian's B. A. Pearson is running a velocity test at 7,000 feet. The well is located on 144-328-25-24, is about 15 miles northeast of Edmonton.

# CARLOADINGS ARE HIGHER

OTTAWA, June 11.—(CP)—Carloadings increased considerably during the week ended June 4 to 73,000 cars from 68,137 cars for the previous week, but were lower than the 68,600 cars a year ago, the Bureau of Statistics reported yesterday.

The improvement over 1948 levels continued in grain, building materials, gasoline and oil. Declines from last year were shown in livestock, foodstuffs and wood and paper.

WE COULDN'T MEET MILDREDS FIRST NAME.

Half a century ago it started around the world, and whole nations hearing it, turned their eyes to Canada, lastly younger in the world's wheat-growing family.

Mildred, from whose name is almost forgotten today, and whose first name cannot be recalled at all, was a Canadian farmer who submitted a sample of his home-grown wheat at the Paris Exhibition.

These few kernels and plump, round stalks won high honors in the world show that the attention of all agricultural nations was directed to Canada as a new and thriving wheat-producing country.

At home, Mildred's achievement was so important that it led to the formation of one of the most valuable of Canadian agricultural associations, whose representatives from all over the Dominion will meet in Edmonton next week.

Mildred's accomplishment inspired Prof. James W. Robertson, Canadian agriculture and dairying for the Dominion in 1896, in 1890, at his own expense, he had the following motto: "The first step is to get the wheat."

His successful was this experiment that Sir William C. Macdonald, all undertook to finance the project for three years and the name of the Macdonald Seed Growers' Association.

The first annual meeting of the association took place in 1900, in 1900, the Macdonald Seed Growers' Association was formed, and the name of the Macdonald Seed Growers' Association.

# Crash Drowning Probe Begins at Peace River

Investigation of the Peace River plane crash and drowning which claimed the life of Edmonton pilot Gordon Wonnacott Tuesday is underway at the Northern Alberta

Investigators of the Department of Transport travelled by motor boat 15 miles down the Peace yesterday to the place where Wonnacott's plane plunged into the river.

Wonnacott was drowned when he attempted to turn to starboard from the crashed plane. Passenger Hugh "Reddy" Melville reached shore.

LATER, DPT officials inspected the landing field from which Wonnacott's plane took off before the fatal crash.

Investigations are continuing to day.

No trace of the plane has been found in the Peace River, murky and rising steadily as a result of spring floods.

Shortly after the crash, James Weaver and Ralph Huxton, travelling the river in a motor boat, reached the Tiger Hole and examined the wreckage. They were unable to keep the plane afloat and it submerged within minutes.

McDonald, passenger in the ill-fated plane, boarded the aircraft at Yellowknife.

Discovery of the great Ledoux field in 1947, Link said, has brought a real oil boom to the area.

Twelve major oil companies now are exploring in Alberta, with 30 others classed as semi-major, and with independents totalling about 50.

Forty-one wildcat wells had been drilled in April, with exploration and development wells totalling 36. Leases and prospecting permits involve 33,000 acres.

Visible Wheat

WINNIPEG, June 11.—(CP)—Canadian visible wheat supplies for the week ended June 2 dropped off sharply from the previous week to stand at 69,500,000 bushels, a decline of 5,500,000 bushels, the Board of Grain Commissioners reported yesterday. Stocks at the same time last year totalled 53,000,000 bushels.

Canadian overseas wheat clearances of 320,000,000 bushels for the week were 600,000 bushels in excess of last week's returns.

Weekly farm wheat markets were steady at 1,700,000 bushels.

Lakehead wheat receipts of 2,000,000 bushels were higher for the week, while shipping returns were lower at 3,600,000 bushels. West stocks in Port William and Port Arthur terminals stood at 81,000 bushels, a decline of 1,000,000 bushels.

Any lease that may be granted shall be issued pursuant to Part VI of the Mines and Minerals Act.

The offer in each case must be accompanied by the full amount of the purchase price together with the rate of \$10.00 an acre for the first year, and the lease fee of \$10.00.

The purchase price, rental and fee must be in the form of cash, bank draft, marked cheque or certified cheque payable to the undersigned or to the Provincial Treasurer.

The offer should be mailed to the undersigned or may be handed to the Director of Mineral Rights, Room 404, Administration Building, Edmonton.

The Department reserves the right to reject any or all offers received and to refund to the person making the offer the money received from him.

To avoid any misunderstanding it is stated that the lease, if issued, will be subject to the royalty that may from time to time be fixed by the Lieutenant Governor in Council pursuant to the Mines and Minerals Act and any offer to receive consideration must be on a strictly cash purchase basis.

The person making an offer accepted by the Department will be given a stated time within which to make formal application.

I. N. McKinnon,  
Minister of Lands and Mines.

THE "BIRCHVALE"—In spite of an increasing tendency to combine dining area with either kitchen or living room there are still many who prefer and even insist upon a separate dining room. This unavoidably increases size of house but can be handled in such a way as to keep overall increase in floor area very small. "Birchvale" approaches absolute minimum size for a two-room bungalow with separate dining space and yet each room appears to be quite large enough. In spite of fact both bedrooms are provided with cross ventilation there is still no problem of furniture arrangement, often a common oversight in minimum designs. This exterior is shown as brick veneer but cinder block construction with painted stucco would be used equally well. This is another suggestion for those considering building low cost houses prepared by Harold C. Beckett, 52 Chatham St. W., Windsor, Ont., for readers of The Bulletin.

## Full U.S. Larder Latest Forecast

Agriculture Dept. Sights  
Another Avalanche of Grain

WASHINGTON, June 11.—(UP)—All signs point today to a bountiful food supply for Americans this year.

Crop production prospects are "more promising than usual," according to the agriculture department's latest forecast.

Outlook is for another, avalanche of grain which can be used to fatten meat animals and expand livestock herds. Result should be big supplies of meat, eggs, milk, cheese and butter.

Corn is basic raw material for meat production. Stocks still on hand from last year's record-smashing crop are at a record high for this time of year. And, the new crop is off to a "very promising start," the department says. Record-high wheat supplies are also in the making and there will be far more than Americans can eat or export.

**MOST OPTIMISTIC**  
The department says its prediction for "all-crop prospects" for the country as a whole are "most optimistic" in the 12 years this category of records have been kept. If prospects are borne out, the harvest may mean (1) lower consumer prices for some foods and (2) a vexing problem of farm surpluses.

Latter may involve increased government controls on farmers to hold down burdensome surpluses and increasing drains on taxpayers under multi-billion-dollar price support programs.

Prospect of another year of heavy farm production comes at a time when the agriculture department says current employment trends indicate "some further weakening in the domestic demand for food and other farm products is likely."

## United Church Raps Indian School Deal

WINNIPEG, June 11.—(CP)—A resolution protesting the closing of Indian schools and urging the board of home missions to rectify the situation was adopted at the closing session yesterday of the Manitoba conference of the United Church.

One delegate said an obligation was owed to the Indians which was not being met by either church or state.

## Measles Epidemic Still Unchecked

Measles outbreak in Alberta continued unabated last week. Dr. J. A. Gillett, director of communicable diseases for the province, reported 231 cases were reported during the week ending June 4.

This is the highest weekly number of cases this year, and brings the total of persons affected by the disease since Jan. 1 to more than 6,500.

## Berry Crisis Looms in B.C.

VANCOUVER, June 11.—(CP)—A "vernal call" for 1,500 berry pickers was issued last night by the defunct-provincial farm labor board to harvest rapidly ripening crops in the Fraser Valley. The board called for women for day work and men for evenings. A statement said only small numbers of women pickers arrived this year from the prairies. Okanagan Valley farmers also appealed for men to thin blossoms. Cherry picking will begin next week.

## Aussies To Start Shipping Board

CANBERRA, June 11.—(Reuters)—Prime Minister Chifley said yesterday the Australian government is making inquiries in Canada, the United States and Britain for a suitable man to take charge of the proposed commonwealth shipping board. A bill authorizing the government to own a shipping line and to engage in shipbuilding, was approved by parliament last year.

## Radio Man Raps CBC Stand on TV

### Many Canadian Broadcasters Ready to Plunge on Video

"Television is a thing of the present, not of the future, and the only thing preventing it from sweeping Canada is the Canadian Broadcasting Corporation."

This view was expressed today by Dan Carr of Guid Radio Features, Toronto, who is on his way east following a western tour. Mr. Carr is associated with Jack Cooke of CKY, Toronto, and New Liberty Magazine.

"Television is the big medium and it's here now if the CBC will only grant licenses to private stations to operate," he said.

**BEYOND EXPECTATIONS**  
In the States television has developed beyond all expectation. Mr. Carr reported. Over 60 stations are using it and there are over 1,600,000 receiving sets.

Shows are more polished and of a higher standard than ever before. Television is actually revolutionizing the life of the American people, he said.

"There's so much to be learned about the new medium we want to get started now in Toronto," Mr. Carr continued. "One station plans to be on the air within six months after the granting of the license with a period of less than a month."

## Coldwell Gets 10-Gallon Hat At Kamloops

KAMLOOPS, B.C., June 11.—(CP)—A big white cowboy hat was presented tonight to Mr. J. Coldwell, national CCF leader by the committee for the Kamloops round-up.

Mr. Coldwell, who delivered a political address here, was invited to attend the first annual rodeo to be held at this time June 30 and July 1.

The CCF leader, sporting the sharp-looking 10-gallon hat, said he regretted that he wouldn't be able to attend because he had promised to attend at that time what he hoped would be a round-up of peace celebrating his personal sharpshooting in the rodeo.

## Best Weekly's Publisher Dies

NEW CANAAN, Conn., June 11.—(AP)—John E. Heram, 77, president and publisher of the New Canaan Advertiser, died today after a short illness. Three times, in 1904, 1908 and 1909, Heram's paper won the National Editorial Association awards as the best weekly in the United States.

He was able to attend because he had promised to attend at that time what he hoped would be a round-up of peace celebrating his personal sharpshooting in the rodeo.

## Stupor-Inducing Drug Aids Alcoholic Cures

ATLANTIC CITY, N.J., June 11.—(AP)—A stupor-producing drug is aiding in the treatment of alcoholism, American Medical Association was told yesterday.

The idea, said two Seattle physicians at the closing session of AMA's 80th annual meeting, is this: In the trance-like state produced, the patient can still talk, and his subconscious mind is probed by a doctor seeking to learn real reasons why the patient began hitting the bottle.

### STRONG SUGGESTIONS

Then the doctor gives an encephalogram "strong suggestions against alcohol and toward correction of faulty habits of thinking."

Work with the drug—called "pentobarbital"—was described by doctors Frederic Lemaire and Paul O'Hellaren of Shadel Sanatorium for treatment of alcoholism.

"They said it is an effective aid in treatment of heavy drinking associated with nervous tension. Their report was based on a three-year follow-up study of 475 patients treated with pentobarbital alone or in combination with a 'conditioned reflex' treatment."

**AVERSION INDUCED**  
"Latter method attempts to produce an aversion to the sight, taste, smell and thought of alcoholic beverages by means of still another drug called 'emetic'."

Researchers said that 98 per cent of the patients followed were still on the wagon after three years. "The doctors said some patients cannot stand the drug at all, and some others develop an abnormal desire for it—skin to their craving for alcohol."

## CPA By-passes New Zealand On Pacific Run

MONTREAL, June 11.—(CP)—A spokesman for Canadian Pacific Airlines last night confirmed that CPA's omitting New Zealand from its trans-Pacific service which originally included a call at Auckland on the Sydney-to-Bijl flight.

The New Zealand stop has been temporarily omitted since Wednesday.

An Auckland report Thursday said CPA was by-passing New Zealand because the Australian-New Zealand route for Tama Empire Airways, a government-owned line.

**Steel Workers To Talk Wages**  
NEW YORK, June 11.—(UPI)—Representatives of the Bethlehem Steel Corp. and the Industrial Union of Marine and Shipbuilding Workers (CIO) said today they would meet early next week to continue a discussion of union demands for wage increases.

A healthy youngster walks and runs about 15 miles a day.

## Health Insurance Pledged by CCF

### Coldwell Commits Party To Working Scheme in 3 Years

The CCF promises a working health insurance scheme for all of Canada within three years.

This election campaign pledge came last night from M. J. Coldwell, the party's national leader, in a speech at Kamloops, B.C. He said a CCF government would pass a national health insurance bill within a year after the June 27 election and have the plan in operation within three years.

As the campaign rolled closer to voting date—official nominations close Monday—Prime Minister St. Laurent's office at Quebec announced he will return to the hustings Monday, with a series of addresses in Montreal district. He has been laid up this week with an attack of laryngitis.

### CANADIAN HAMMERED

George Drew, Progressive Conservative leader, moving through northern Ontario, spoke at Espanola and hammered again at sale of the giant Canadair aircraft plant at Montreal in Electric Boat Company of United States.

He called upon Trade Minister Howe to make public the details of the sale and quoted from an order-in-council passed by the cabinet in 1947 which he said made it clear Mr. Howe personally was authorized to handle the transaction.

### DREW CHARGE DENIED

Mr. Howe, speaking at Windsor, Ont., denied St. Laurent's charge that the sale was secret and that no tenders were called.

"If there was ever a case of a government striving to keep the air industry alive," he said, "it was illustrated in the sale of Canadair."

He said the government, seeking to keep the cross-financed corporation in operation, asked its original director, Benjamin Franklin, to finance a corporation strong enough to survive. Mr. Franklin produced a "strong" proposal that the government place control with the Electric Boat Company on a lease-option basis. The arrangement was concluded.

### ABBOTT PREDICTS

Finance Minister Abbott, at Fredericton, came out with an election prediction. He said the government will win 60 seats in Quebec and make a clean sweep of Newfoundland's seven seats. As for Ontario, his colleagues had assured him the Liberals would regain traditionally Liberal ridings in western Ontario.

External Affairs Minister Pearson, speaking at St. John's, Nfld., attacked what he termed a "cheap revelling campaign" against Mr. St. Laurent and said the prime minister is being "subjected to bitter attacks from men who would and do know better."

### Cover Old Mines

TIMMINS, Ont.—(CP)—Dangerous open wells and mine shafts in this area are to be ordered boarded over or filled in. Local councils are concerned about the danger to children of water-filled wells, basements or mines.

## Alberta Lodge Names Officers

CALGARY, June 11.—(CP)—Additional officers elected at the close of the 44th annual communication of the Grand Lodge of Alberta, A.F. and A.M., yesterday, have been announced.

In addition to H. B. Macdonald, M.L.A., who was elected Grand Master, Earlery Grand Master, was named Deputy Grand Master, Walter Emper of Edmonton was named Senior Grand Warden, Harry E. Howard of Calgary, Junior Grand Warden, George Moore of Calgary, Grand Secretary, A. J. Davis of Calgary, Grand Treasurer, and Hon. Peter Dawson of Champion, Grand Chaplain.
